General Description

For a number of years I have enjoyed a successful career in Germany as a freelance software architect, IT consultant and senior developer in e-business solutions. Enterprise portals, content management and customer relations' management are the areas in which I specialise. My skills also span modern software development methods such as Rational Unified Processes and Extreme Programming. Ideally, I am seeking a role in a software development project, whereby I would be utilizing my sound expertise in Requirement Analysis and Use Case technique, system architecture, object-orientated analysis and database design, evaluation and customization of frameworks, team leadership, coordination of external suppliers, release management and support of the test team. On more than 20 projects I have gained a breadth of experience in liaising with customers in different sectors including telecommunications, insurance, pharmaceuticals, mechanical engineering and publishing.

Due to my competencies in various fields, I am an ideally suited to projects of a highly technical and complex nature. The majority of the aforementioned projects have focused on implementation and have called upon my specialist skills in Java / J2EE technology.

Qualifications

1996/09 – 1999/09 **Diploma (engineering) in computer science** Berufsakademie Berlin,
- Specializing in software engineer Germany

Employment

2003/10 **Freelance**
Software development, software architecture, quality management

2003/07 - 2003/10 **Handwerk.de/AG**
Technical project management, conception and development of a CRM System for portal Handwerk.de/AG Senior developer

2001/05 - 2003/07 **Cap Gemini Ernst & Young Deutschland GmbH**
Technical project management, IT consultant and developer for content management systems, enterprise portals and application servers IT-Consultant

1999/09 - 2001/05 **WWL Internet AG**
Back-end and front-end development Software engineer,
Management of content management systems Competence center leader CMS

1996/09 - 1999/09 **Alcatel SEL AG Berlin**
Trainee – responsible for various tasks Student
Post diploma: configuration of the communication software system with XML
Pre diploma: development of remote-controlled constant power supply systems

<p>2005/01 – 2005/08</p> <p>T-Systems Intranet Internationalization</p>	<p>Sector: System integrator Summary: Re-launch and redesign of the worldwide knowledge database and intranet for T-Systems' business units and national markets. Tasks: Technical conception, quality management operations, data protection and security, developer manual and guidelines, hardware architecture, liaison with provider, support for acceptance test, load and stress test, performance analysis and proof of accessibility study. Technologies: CoreMedia 4.2 (CMS), Jakarta Tomcat 4.1, Ant, UML (Enterprise Architect), Java/J2EE, JSP, Oracle 9 database Position: Release manager, software architect Project Members: 25-50 Location: Dresden and Bamberg, Germany</p>
<p>2003/11 – 2004/12</p> <p>T-Systems Internet Internationalization</p>	<p>Sector: System integrator Summary: Migration of Internet site from Vignette Story Server to CoreMedia 4.1, collaboration with T-Systems MMS. Tasks: Support of the technical conception, software deployment, quality management operations, development of manual and guidelines, content model and migration, realization, last and stress test and performance analysis. Technologies: CoreMedia 4.1, Jakarta Tomcat 4.1, Cactus, JUnit, Ant, UML (Enterprise architect), Java/J2EE, JSP, HTML, Javascript, Struts, Wage Framework, Oracle 9 database Position: Software architect, technical leader, software engineer Project Members: 15-20 Location: Dresden, Germany</p>
<p>2003/10 – 2003/12</p> <p>km4042.de Portal for street art</p>	<p>Sector: Art and design Summary: Creation of communication platform on street art. Tasks: Conception of technical implementation, hosting, realization of the design, content management based on web interface myPHPAdmin and development of on-line shop. Technologies: PHP 4, MySQL Position: Responsible for website conception, software engineer Project Members: 3 Location: Halle and Berlin, Germany</p>
<p>2003/11</p> <p>Techniker Krankenkasse Internet Portal</p>	<p>Sector: Health insurance Summary: Evaluation of messaging service between ATG Portalserver and CoreMedia CMS Tasks: Analysis and evaluation of the existing solution, design of solution strategies, configuration of management guide for OpenJMS and implementation of prototype. Technologies: JMS, ATG Dynamo, Coremedia, Java, J2EE, Oracle 9i, Ant, JBuilder 9 Position: Software architect Project Members: 20 Location: Hamburg, Germany</p>
<p>2003/10</p> <p>Celesio Intranet employee information portal</p>	<p>Sector: Pharmaceuticals Summary: Further development and conception of the Intranet portal solution. Tasks: Software development, test cases, change management. Technologies: ATG, J2EE, Java, Ant Position: Technical leader, IT designer, software engineer Project Members: 2 Location: Stuttgart and Berlin, Germany</p>
<p>2003/7 - 2003/10</p> <p>Handwerk.de/ AG Internet Portal</p>	<p>Sector: The Union for German Trades People Summary: Further development and conception of the CRM solution for the union's Internet portal. Tasks: Creation of the software processes (deployment, change of management, source of management, test cases). Further development of the organization's management system, collaboration with and responsibility for external service providers. Design and development of interfaces based on WebServices. Technologies: Divine CMS, Struts, BEA Weblogic, J2EE, LDAP, EJB, Clearcase, Clearquest, Microsoft SQL Server 2000, Ant Position: Technical leader, IT designer and software engineer Project Members: 35 Location: Berlin, Germany</p>

2002/10 - 2003/07	IDW Verlag GmbH Internet Portal	<p>Sector: The Institute of German Accountants Summary: Design and development of the enterprise portal for Institute of German Accountants; including online shop, and payment solution for online publications. Tasks: Development based on ATG Dynamo, Integration of personalized and payable content of different content sources, construction of connecting components to foreign customer relations' management and enterprise resource planning systems, conception and realization of software deployment, deployment. Technologies: Coremedia 4.1, ATG Suite 5.6, LDAP, MS-SQL Server 2000, CVS, Ant, Bugzilla Position: Technical leader, software engineer Project Members: 15 Location: Düsseldorf / Germany</p>
2002/05 - 2002/10	Heidelberger Druckmaschinen AG Extranet	<p>Sector: Printing machines manufacturer Summary: Planning and development of web enabled front-end to order management SAP for external suppliers. Tasks: <ul style="list-style-type: none"> - Design and development of the online shop based on Use Case Engineering - Design und Implementation of framework components - Creation of component tests based on JUnit and development of documentation - Training of customers - Creation of load und stress tests Technologies ATG Commerce Suite / Personalization Server 5.6, Oracle 9, Java Beans, JSP, Forte Developer Suite, HTML, XML, CVS, ANT, JUnit, Element-Tool Position: Software engineer Project Members: 25 Location: Heidelberg, Germany</p>
2002/02 - 2002/04	VWR International Internet Information Portal	<p>Sector: Medical supplies Summary: Planning and realization of a content management solution for VWR International Inc. Product supporting five languages, page and user administration. International launch of roll out plan following six-week long implementation and testing phase. Tasks: Development of the JSP Templates and business logic Technologies: Pirobase 5.0, J2EE1.2, Tomcat, Oracle 9 Position: Technical leader, consultant and software engineer Project Members: 10 Location: Philadelphia and New York, USA</p>
2001/11 - 2002/02	Cap Gemini Ernst & Young Intranet Information Portal Germany	<p>Sector: Consultancy Summary: Construction of new website for CGE&Y Germany Tasks: Planning and technical consulting on optimization of CGE&Y's current web presence. Technologies: Pirobase 4.2, J2EE 1.2, Tomcat 4, Oracle 7 Position: Consultant and software engineer Project Members: 5 Location: Düsseldorf, Germany</p>
2001/08 - 2002/02	Cap Gemini Ernst & Young Intranet Central Europe	<p>Sector: Consultancy Summary: Creation of website for CGE&Y intranet in Central Europe. Tasks: Establishment of an employee database, application management, hotel and travel solution, and content creation for each department. The CMS is customized to the customers' request: global Single Sign On, and interfaces to worldwide services of CGE&Y. Training of authors, administrators, as well as support and services staff. Technologies: Pirobase 4.2, J2EE 1.2, Tomcat 4, Oracle 7 Position: Design manager, software engineer, temporary project manager and trainer Project Members: 10 Location: Düsseldorf, Germany</p>

2001/09 - 2001/10	SKF Internet Shop System	<p>Sector: Manufacturer of ball bearing equipment Summary: Planning and development of Internet shop for business and private customers. Tasks: Development of an e-business solution and technical consulting on ATG Dynamo. Technologies: ATG Dynamo 5.5, CMS Xpedio, CVS Role: Software engineer und IT architect Project Members: 25 Location: Gothenburg / Sweden</p>
2001/03 - 2001/04	Bosch GmbH Portal Integration	<p>Sector: Global supplier of automotive and industrial technology Summary: Integration of Content Management System VIP Gauss-Interprise in the Portalserver IBM Webshere. Tasks: Consulting on CMS / Portal Integration Technologies: IBM Webshere, Intershop Enfinity, VIP Gauss-Interprise Position: Consultant, software engineer Project Members: 2 Location: Stuttgart, Germany</p>
2000/09 - 2001/03	Bayrische Beamtenversicherung Internet Portal	<p>Sector: Private insurance company for the Bavarian civil service Summary: Construction of website Tasks: Leadership of the development team, development of the framework, release management, software installation and delivery. Technologies: CMS VIP Gauss-Interprise, Java 1.2, J2EE 1.1, Resin Servlet Engine, CVS Position: Technical leader, software engineer Project Members: 15 Location: Munich, Germany</p>
2000/09 - 2001/03	WWL Internet AG Internet Portal	<p>Sector: Internet agency Summary: Realization of an innovative design and integration with a CMS. Tasks: Conception and development of the company's intranet. Technologies: Vip Gauss Interprise 4 Position: Technical leader and software engineer Project Members: 7 Location: Berlin and Nuremberg, Germany</p>
1999/10 - 2000/09	Quelle Bausparkasse Internet Portal	<p>Sector: Building society Summary: Internet portal for customers, design of the service enabling customers to calculate contract online, design of contract self-management service, realization of the design guideline, transaction management, enterprise application integration with the backend system. Tasks: Software engineer and portal architect. Technologies: Perl 5, Delphi 5 Position: Technical leader, software engineer Project Members: 7 Location: Nuremberg, Germany</p>
1999/03 - 1999/08	Alcatel SEL AG Configuration Management	<p>Sector: Telecommunications Summary: Configuration of Alcatel's relaying telephone system System12 with SMC3 software. Tasks: Syntax and semantics checks of the configuration of SMC3 system and restructuring of the configuration files with XML. Technologies: Perl 5, XML, Clearcase, HP-UX as diploma topic Project Members: 1 Location: Berlin, Germany</p>
1998/01 - 1998/03	Alcatel SaftNife Controlling Software	<p>Sector: Manufacturer of power supply systems Summary: Software for remote control and monitoring of constant power supply systems. Tasks: Requirements specification, conception and development. Technologies: Delphi 4, TCP/IP, Network Programming Project Members: 3 Location: Berlin, Germany</p>
1997/06 - 1997/09	Alcatel BKK SEL Electronic Forms	<p>Sector: Health insurance Summary: Standardization of recording customer information. Tasks: Development of electronic application forms. Technologies: Delphi 4 Project Members: 3 Location: Berlin, Germany</p>
